

Date of Publication: 02/07/2018

Location: São Leopoldo, Rio Grande do Sul, Brazil

Function: (not indicated)

Level of Instruction: Doctoral

Description:

The Graduate Program in Education at Unisinos University, including masters level and doctoral level (program recommended by Capes – concept 7), seeks professors/researchers for permanent teaching positions in two research lines.

- Research Line: Formation of teachers, Curriculum, and Pedagogical Practices
- Research Line: Education, Development, and Technologies; See more at <http://www.unisinos.br/mestrado-e-doutorado/educacao/presencial/sao-leopoldo>.

Qualifications:

Minimum necessary qualifications of candidates for both available positions:

- A PhD degree that is nationally recognized in one of the following disciplines: Education (preferably), Education Informatics, or the Human and Social Sciences;
- Qualified Scientific Production – full articles published in journals of Education, book chapters and books published in the last four years, in the upper extracts of CAPES Qualis in the area of Education;
- Training, research experience, teaching and advising, and scientific production must demonstrate proficiency in the area of Education and in one of the Research Lines: a) Formation of teachers, Curriculum, and Pedagogical Practices; or b) Education, Development, and Technologies, with an emphasis on educational technologies, especially digital technologies.

Desired qualifications of candidates for both available positions:

- Teaching experience in graduate level education, stricto sensu;
- Experience in advising and orienting dissertations and/or theses;
- Experience in the elaboration, fundraising, and development of research projects;
- English language proficiency (preferably), and/or other foreign languages;
- International Integration (publication in indexed journals, participation in international research groups).

Documents necessary for application (must be attached via Portal on the Perfil page – Anexar Currículo – in PDF format):

- Proof of Doctorate Degree in Education (preferably), Education Informatics, or the Human and Social Sciences, and proof of master's degree and bachelor's degree.
- Currículo Lattes updated to the date of submission
- Research Proposal (15 pages maximum), adhering to the themes indicated in the selection process for one of the two research lines: Formation of teachers, Curriculum, and Pedagogical Practices; or Education, Development, and Technologies
- A cover letter addressed to the selection committee, explaining your relation to the research line indicated in your application as well as your integration with the field of education.

Foreign Applicants:

- Legible copy of the identification page of passport (must include the identification number, name, date of birth, nationality, and photograph - no authentication required) - art. 1st, subsection II, point "a" of RN nº 74/07;
- Proof of PhD degree and professional experience compatible with the activity to be performed, in accordance with art. 2º, § n º 0 of RN nº 80/08, recognized in Brazil until the date of hiring;
- The curriculum vitae can be delivered in free format.

Disabled Applicants:

- If specific adaptations must be made in order to complete the application process, indicate what these at the time of registration

Benefits:

Some of the benefits that Unisinos offers to its professors:

- Health insurance: Coopersinos Saúde, with a subsidy of up to 50%;
- Supplementary pensions: Bradesco Vida e Previdência, after the first year of employment;
- Discount of up to 80% in monthly fees for undergraduate programs for dependents;
- Discounts of up to 50% in tuition fees in courses or programs in graduate studies, continuing education, or languages
- Reimbursements for day care for children up to 4 years old;
- On-site parking.

Selection Process:

Registration: from July 2 to October 15, 2018.

1st Stage (Elimination)

Period: from November 5th through 8th, 2018
